1. Master Ecosystem Architecture & Flowcharts

Vows & Venues ek complete 3-sided luxury Indian wedding ecosystem hai jo teen distinct stakeholders ko real-time synchronize karta hai: **Wedding Couples (Clients)**, **Elite Vendors & Heritage Estates (Partners)**, aur **Platform Admin & SuperAdmin Concierge (Operations)**.

High-Level Interaction Flowchart

Core Stakeholder Roles & Access Summary

Portal / User Role	Access URL & Credentials	Core Capabilities	Financial & Booking Control
Client / Couple	`/` Public or Sign Up	Browse 40+ palaces/vendors, 3D mandap hero, Event Builder studio, AI Concierge, Couple Toolkit.	Token advance payment (25%), Admin UPI QR scanning, UTR submission, promo discounts.
Vendor Partner	`/vendor` Email + Password or Storefront switch	Manage palace storefront, lead negotiations, blackout calendar, KYC bank submission, package publisher.	Review milestone disbursements, track 10% platform take rate, request escrow payouts.
Admin Concierge	`/admin` `admin@vowsandvenues.in`	Wedding leads CRM (Kanban), WhatsApp automated alerts, site recces manager, package builder, vendor SLAs.	Full Payment Gateway control, custom QR upload, UTR verification queue, milestone release.
SuperAdmin	`/admin` Master Access	Complete administrative authority over users, audit trail, SEO, CMS banners, vendor KYC approvals.	Financial ledger reconciliation, commission structure, gateway sandbox/live toggles.

2. Client / Couple Portal — Complete Testing & Usage Guide

Wedding couples ke liye website ko intuitive, high-touch luxury aur completely transparent banaya gaya hai. Niche har ek client feature ko test karne ke exact steps diye gaye hain:

Feature 1: Interactive Hero & 3D Colonnade Mandap

1 **Hero Search Bar Testing (City, Date, Guests, Budget)**

Homepage par aate hi luxury 3D mandap aur floating rose petals render hote hain. **Celebration Type** (Wedding), **Destination City** (Jaipur, Udaipur, Lucknow, Delhi NCR), **Event Date**, aur **Guests** select karke *"Search Verified Masters"* ya *"Explore Directory"* par click karein. Homepage dynamically filtered vendor listings show karega.

Feature 2: "Build My Event" Interactive Studio (Core Planning Engine)

2 **5-Category Event Bundler & Live Budget Progress Meter**

Top header par **"Build My Event"** tab par click karein. Yahan couple apne wedding ke 5 core pillars assemble kar sakta hai:

- **Venues / Banquet Halls**: Heritage Palaces, Forts, Luxury Lawns.
- **Catering & Feasts**: Shahi Awadhi Dawat, Multi-cuisine royal feasts.
- **Decoration & Mandaps**: Royal floral setups, entrance arches.
- **Photography & Cinema**: 4K Cinematic teasers, candid moments.
- **Makeup Artists**: Signature HD bridal glam.

Top par live budget meter real-time calculate karta hai: Target Budget vs. Allocated Services vs. Remaining Balance.

3 **Vendor Swapping & Quotation Export**

Kisi bhi category ke samne **"Swap Vendor"** button dabakar instant alternative vendor choose karein. **"Export Formal Quote"** button dabane par couple ko professional PDF-ready wedding quotation milta hai.

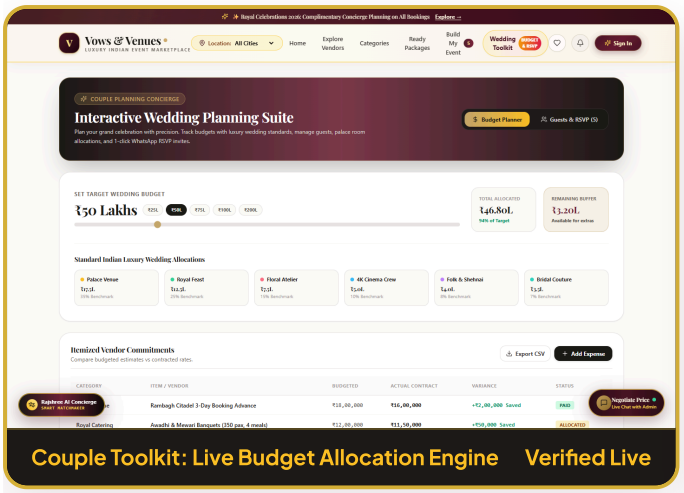

Feature 3: Couple Wedding Toolkit (Budget Planner & RSVP Guest List)

4 **Testing Budget Planner & Category Allocation Sliders**

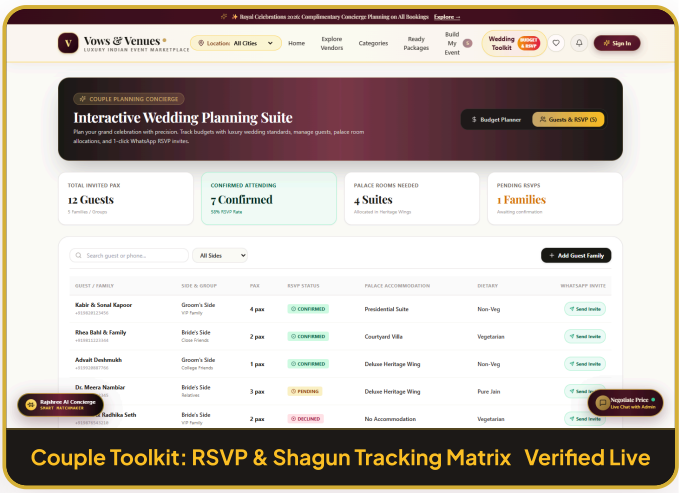

Top navigation me **"Wedding Toolkit"** chip par click karein. Sub-tab *"Budget Allocation"* open karein: Total budget (e.g., ₹25,00,000) enter karein. System Indian wedding industry standards ke mutabiq automatic allocation (Venues 45%, Catering 25%, Decor 15%, Photo 10%, Misc 5%) calculate karta hai.

5 **Testing Guest List, Shagun Tracker & Seating Manager**

Sub-tab *"Guest List & RSVP"* me naye guests add karein, unka attendance status (Confirmed / Pending / Declined), side (Ladkewale / Ladkiwale), table allocation, aur Shagun gift amount track karein.

Couple Toolkit: Live Budget Allocation Engine Verified Live

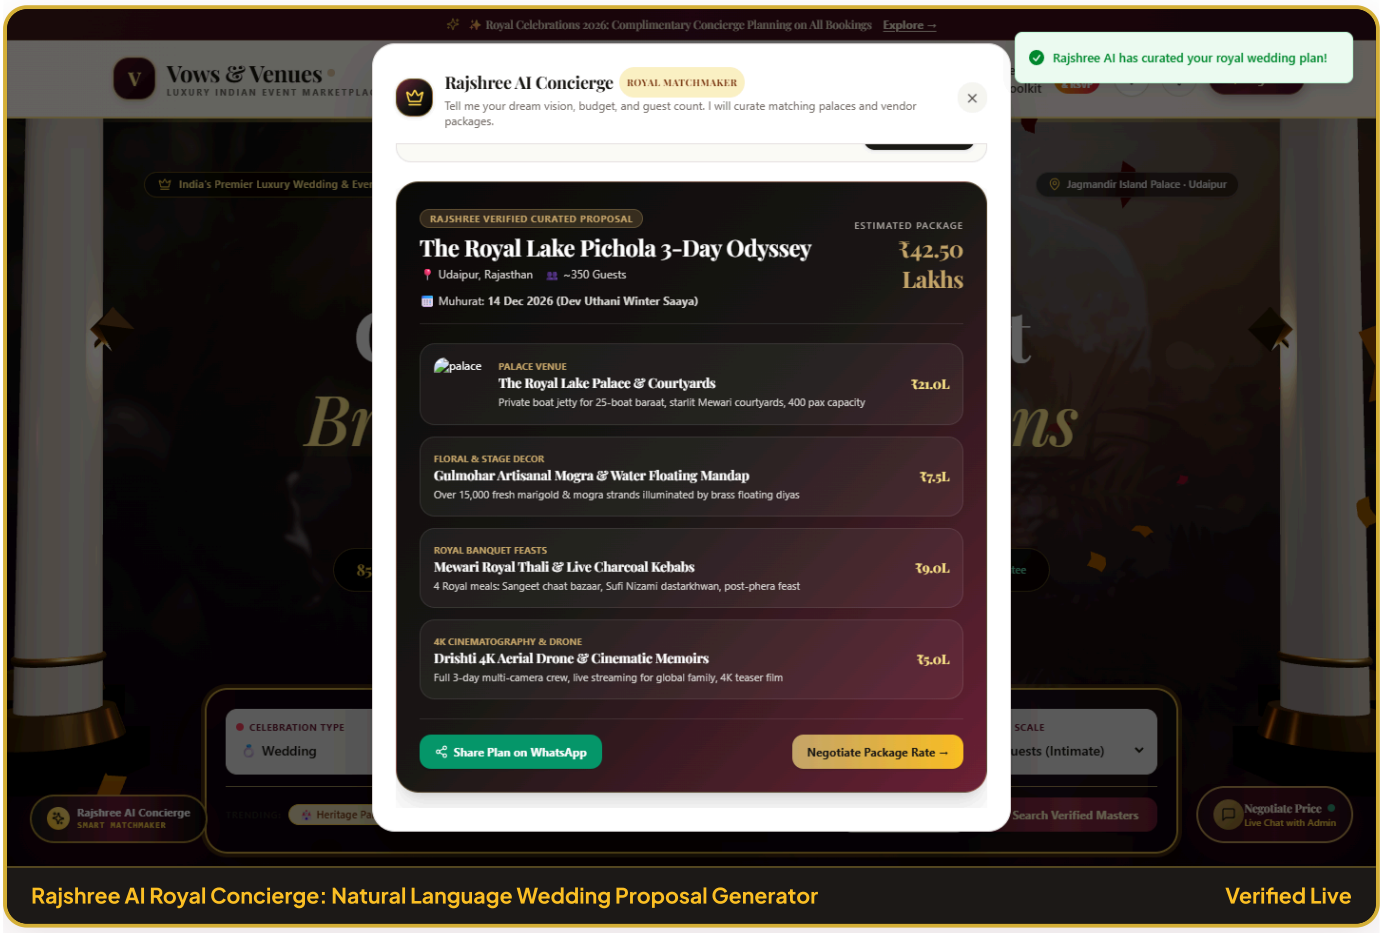

Couple Toolkit: RSVP & Shagun Tracking Matrix Verified Live

Feature 4: Rajshree AI Royal Concierge (Smart NLP Matchmaker)

Bottom left floating button **"Rajshree AI Concierge"** par click karke natural language me apni dream wedding requirements type karein (jaise: *"We want a royal wedding at a heritage fort in Rajasthan with 400 guests and traditional shehnai welcome under 35 Lakhs"*).

6 **Testing Rajshree AI Instant Proposal Generation**

AI prompt submit karne par Rajshree instant 3 curated multi-tier packages generate karti hai: **Royal Heritage Elegance**, **Grand Imperial Celebration**, aur **Regal Majestic Extravaganza**. Har package me venue, catering, decor aur entertainment ke line-item costs pre-calculated hote hain.

Rajshree AI Royal Concierge: Natural Language Wedding Proposal Generator — Verified Live

Feature 5: Live Price Negotiation & Concierge Chat Drawer

7 **Testing Price Negotiation Counter-Offer Workflow**

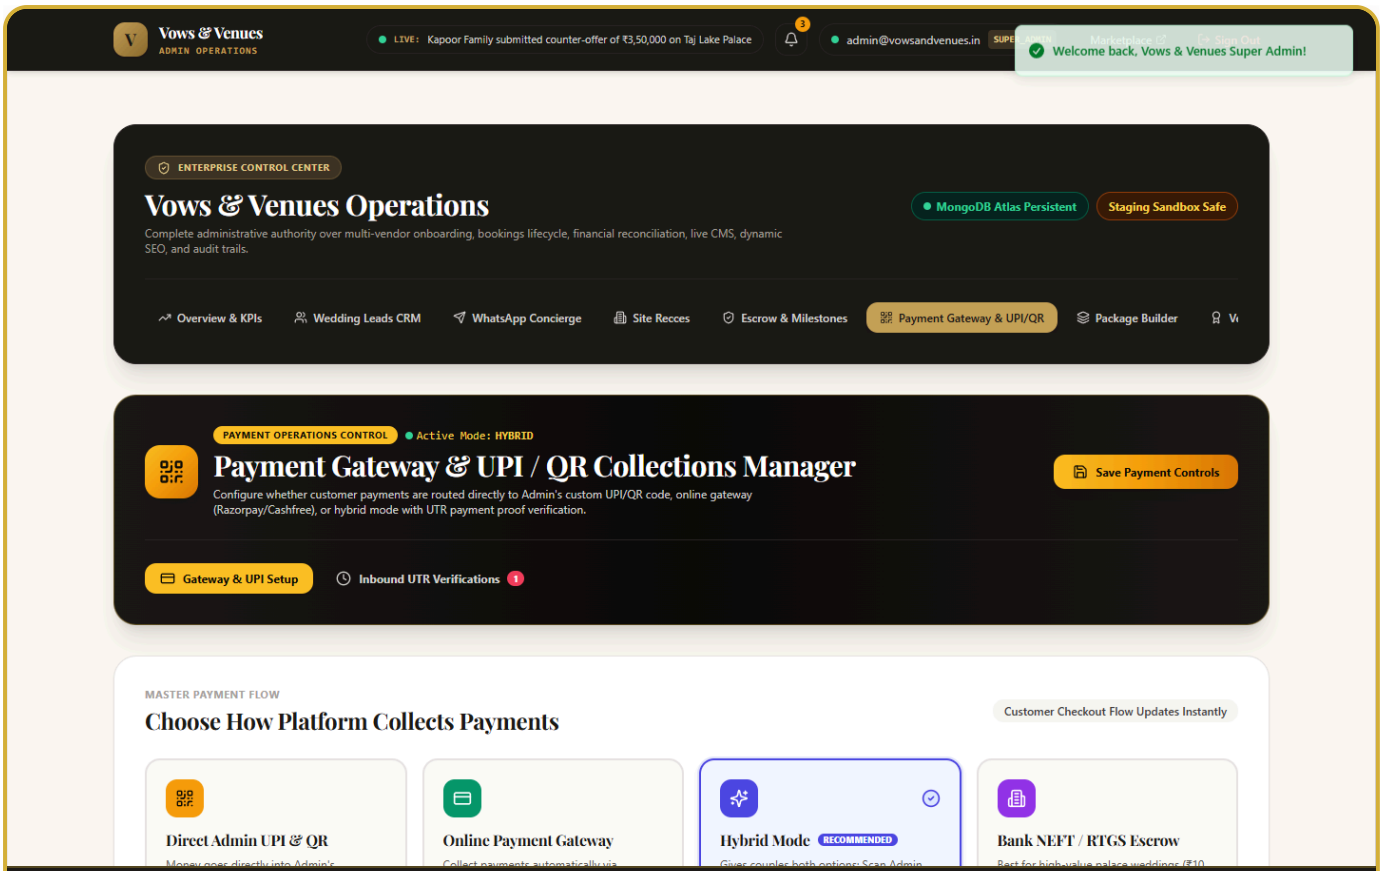

Bottom right floating button **"Negotiate Price"** ya kisi bhi vendor card par *"Negotiate"* click karein. Drawer open hoga jahan couple direct Admin Concierge se live chat kar sakta hai, apna proposed counter-offer submit kar sakta hai (e.g. ₹2,00,000 listing ko ₹1,60,000 propose karna). Admin ke counter-offer accept karte hi **"Apply Negotiated Deal"** button appear hota hai jo sidhe discounted booking modal me le jaata hai!

3. Payment Gateway & Custom UPI/QR Collection Manager

Yeh platform ka sabse critical financial upgrade hai. Ab Admin ke paas 100% operational authority hai ki client se payment kis method se li jayegi. **Chahe Admin direct apna personal/business UPI QR code lagakar bina 1 rupaye ke gateway commission ke 100% instant payment apne bank me lena chahe, ya Online Gateway active karna chahe — sab kuch live controllable hai.**

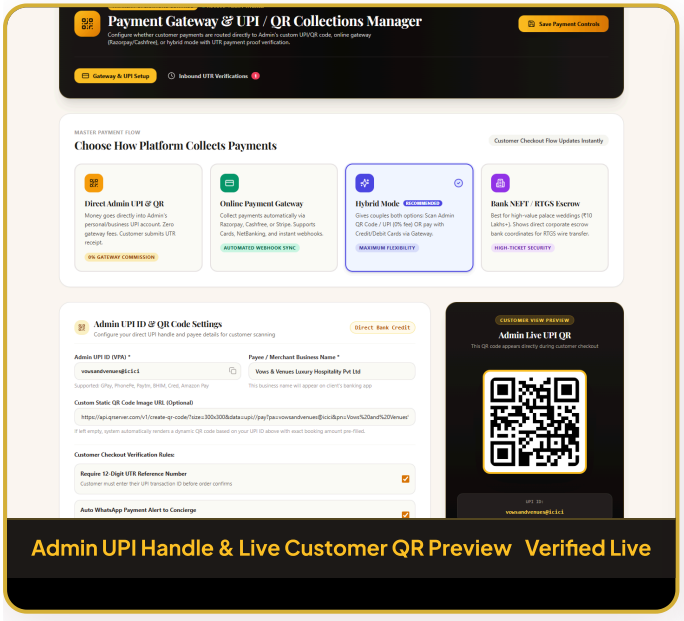

The 4 Operational Payment Modes (Master Mode Selector)

Payment Mode	Admin Setup & Configuration	Customer Checkout Appearance	Reconciliation & Settlement
1. Direct Admin UPI & QR (0% Fee)	Enter Admin UPI ID (e.g. `vowsandvenues@icici`) & Payee Name. Auto dynamic QR preview.	Customer scans Admin QR, sees merchant name, 1-click copies UPI, or clicks GPay/PhonePe mobile intent link.	Customer submits 12-digit UTR receipt. Admin verifies in Inbound Queue before confirming booking.
2. Online Payment Gateway	Select Razorpay, Cashfree, Stripe, or Paytm. Enter Key ID, Secret, Webhook. Toggle Test vs Live.	Customer pays via Credit/Debit Cards, NetBanking, UPI intent through encrypted 256-bit gateway.	Automated webhook confirmation. Funds settle into linked merchant bank account.
3. Hybrid Mode (RECOMMENDED)	Both UPI settings and Gateway credentials configured simultaneously.	Customer is offered two tabs: *"Scan Admin UPI QR (0% Fee)"* OR *"Card / NetBanking Gateway"*.	Gives couple complete freedom of choice; high-value clients prefer direct zero-fee QR.
4. Bank NEFT / RTGS Escrow	Configure Corporate Escrow coordinates: Bank Name, Beneficiary Name, Account Number, IFSC.	Customer receives official corporate RTGS wire coordinates for transactions above ₹10 Lakhs.	Direct bank wire UTR verified by finance manager against official bank statement.

Admin Configuration Settings (UPI Handle & API Credentials)

Admin UPI Handle & Live Customer QR Preview Verified Live

Online Gateway API Credentials & Escrow Coordinates Verified Live

Customer Checkout Flow (Step 6: Secure Payment)

Customer jab Event Builder Studio me **"Book All Services"** click karta hai, toh 6-step modal chalta hai. **Step 6 dynamically Admin ke configured mode ko render karta hai:**

8 **Step 6: Dynamic Admin QR Code & Amount Encoding**

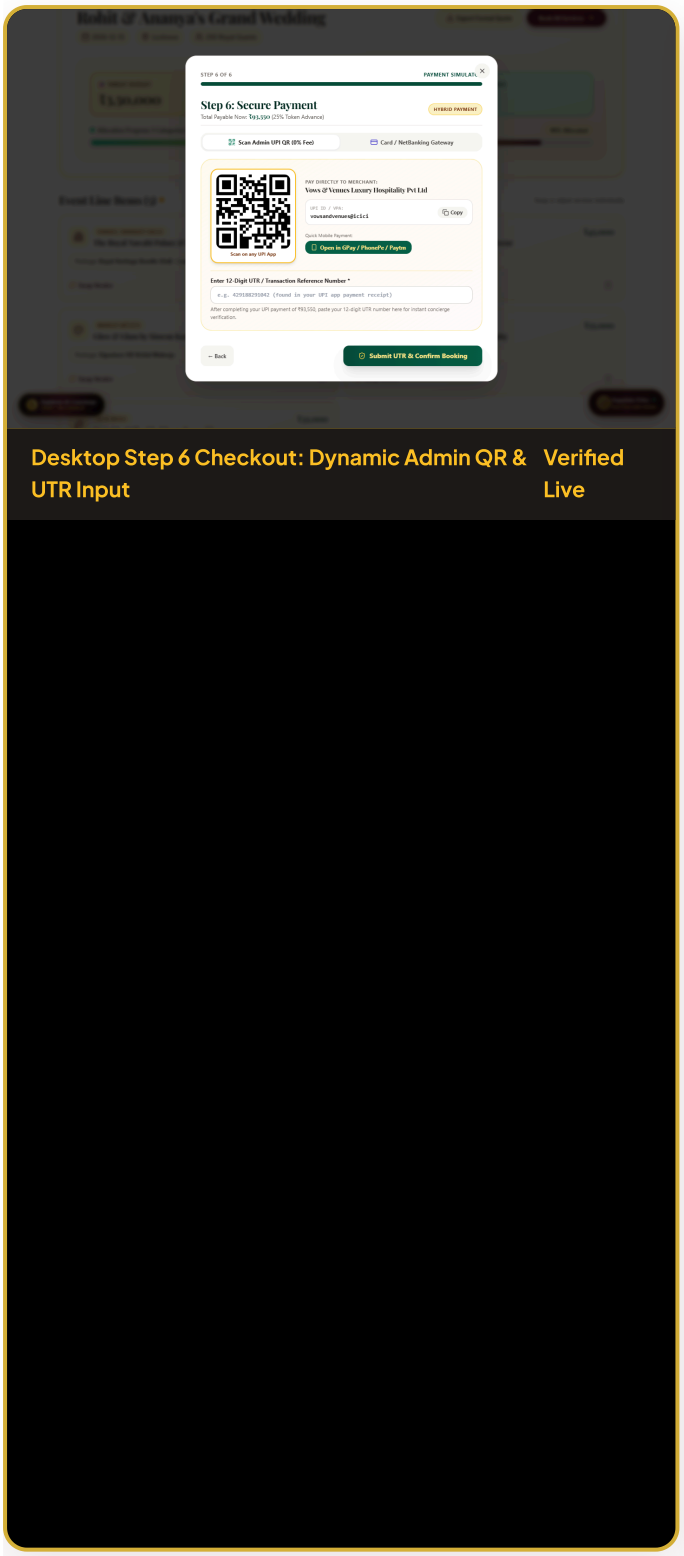

QR code me payable amount (jaise ₹93,550 for 25% token advance) dynamically pre-encoded hota hai (`upi://pay?pa=vowsandvenues@icici&am=93550...`). GPay ya PhonePe se scan karte hi exact amount pre-filled open hoti hai.

9 **Quick Mobile App Intent & 1-Click Copy**

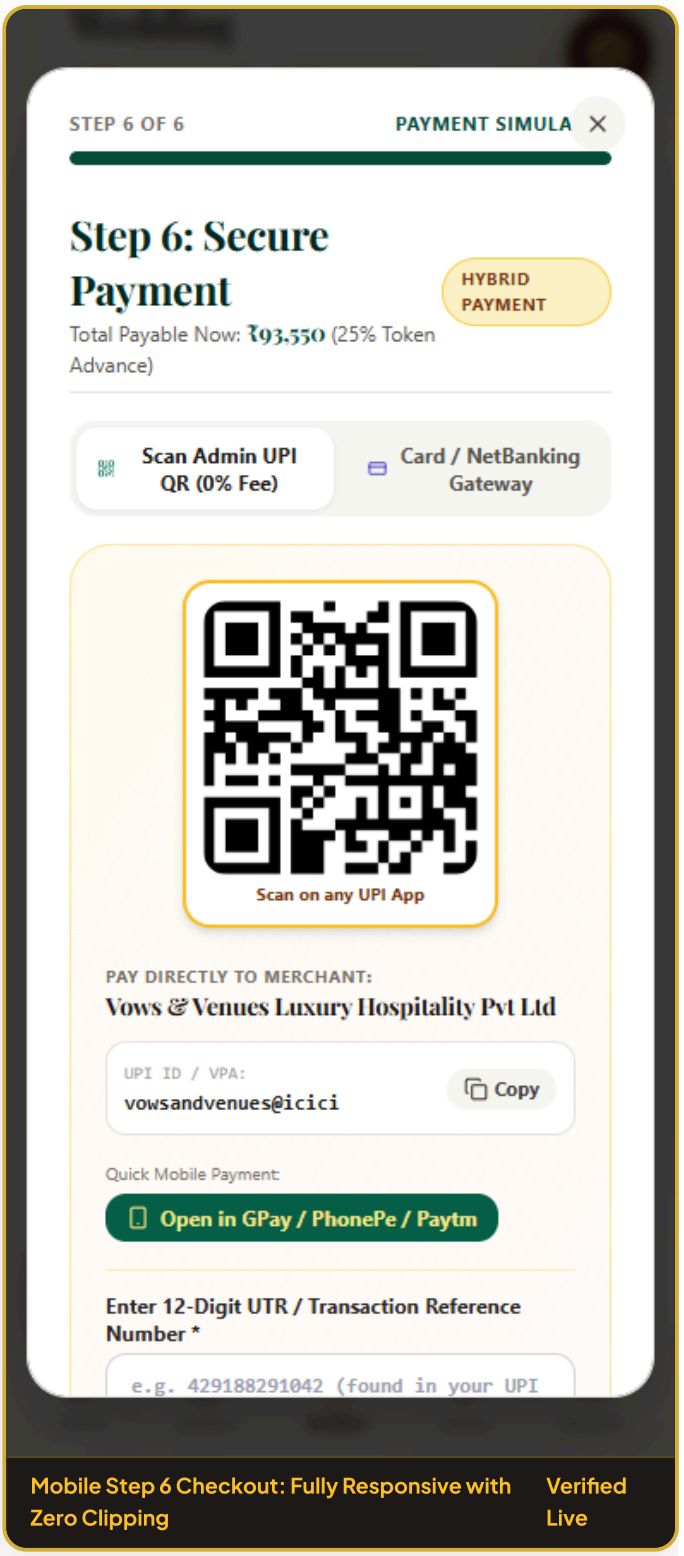

Mobile par customer *"Open in GPay / PhonePe / Paytm"* dabakar direct app switch kar sakta hai ya *"Copy UPI ID"* button se VPA clipboard par copy kar sakta hai.

10 **Mandatory 12-Digit UTR Submission & Anti-Fraud Safety**

Payment ke baad customer apna 12-digit UTR reference number (e.g. `429188291042`) enter karta hai. **Crucial Financial Safety Rule:** UTR submit karne se booking turant "Paid" nahi hoti; wo `PENDING_VERIFICATION` status me jaati hai taaki koi fake UTR daalkar fake booking na bana sake.

Mobile Step 6 Checkout: Fully Responsive with Zero Clipping Verified Live

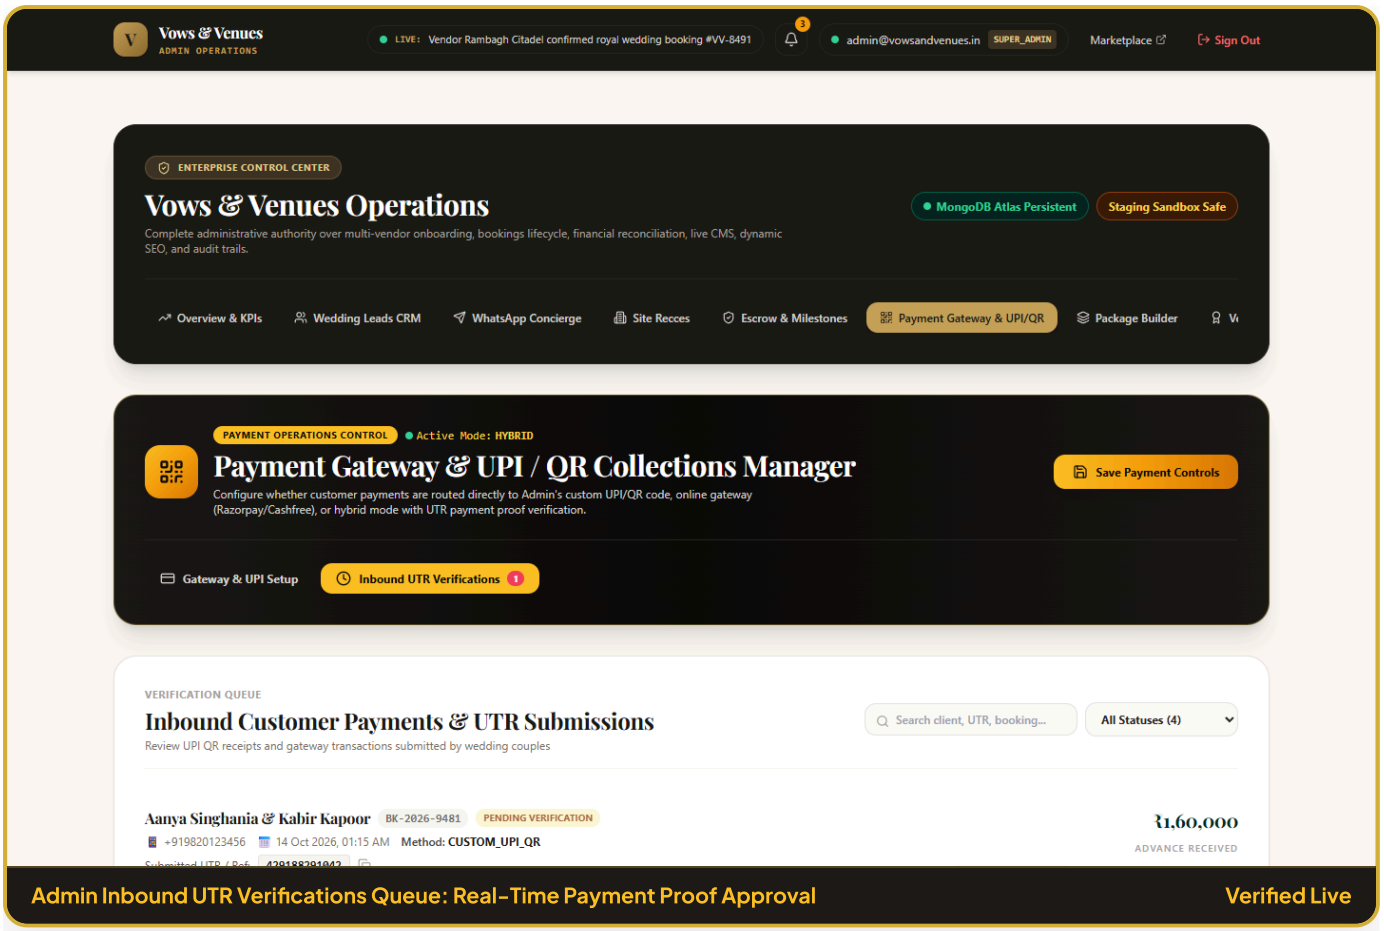

Admin Inbound UTR Verification Queue (Admin Operations Inbox)

11

Reviewing & Confirming Submitted Payments

Admin Console me **"Payment Gateway & UPI/QR"** tab me sub-tab **"Inbound UTR Verifications"** open karein. Yahan customer submissions real-time appear hote hain. Admin:

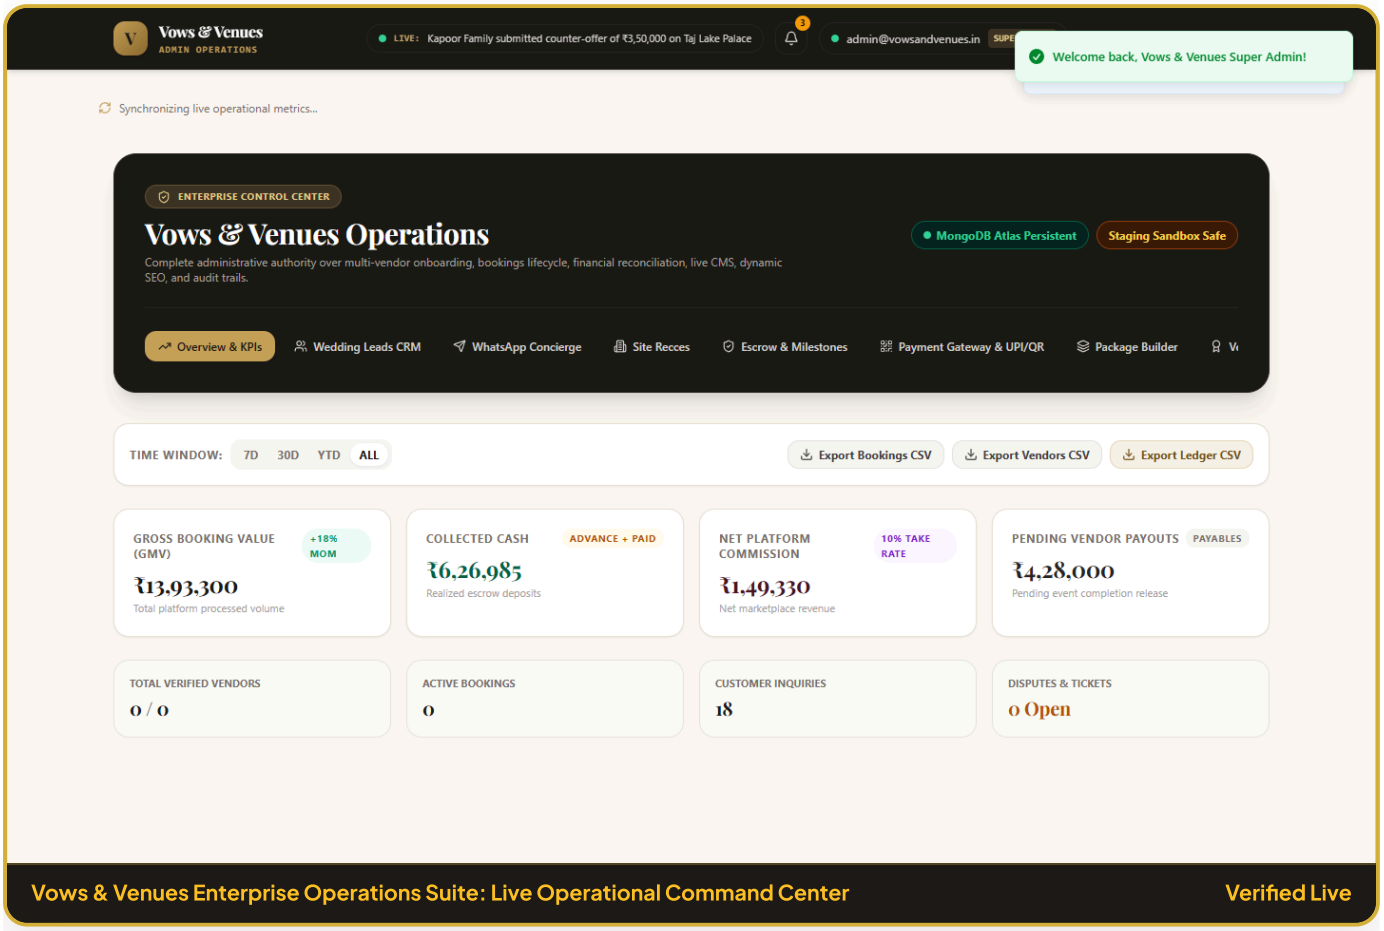

- **Copy UTR**: 1-click me UTR copy karke bank statement se tally karein.
- **Verify & Confirm**: 1-click se booking confirm karke customer ko verified invoice bhejein.
- **Reject**: Invalid UTR ko reject karein jisse customer ko re-submission ka alert mile.
- **Chat on WhatsApp**: Pre-filled booking & UTR details ke sath direct client se connect karein.

4. Admin Operations Suite — Complete Operational Guide

Admin console URL: `https://vowsandvenues-staging.onrender.com/admin`
Login Credentials: `admin@vowsandvenues.in` / `Vows#Stg2026!SecureKey` (or click "Autofill").

Vows & Venues Enterprise Operations Suite: Live Operational Command Center — Verified Live

Overview of Admin Operations Tabs

A **Wedding Leads & Concierge CRM (Kanban Board Pipeline)**

Indian luxury weddings me couples directly checkout nahi karte; inquiry bhejne ke baad concierge call hoti hai. Admin panel me visual Kanban pipeline hai: *New Inquiry* ➔ *Concierge Call Done* ➔ *Site Recce Scheduled* ➔ *Quotation Sent* ➔ *Token Paid (Won)*. Har high-value lead ko relationship manager assign kiya ja sakta hai.

B **WhatsApp Business Concierge Integration**

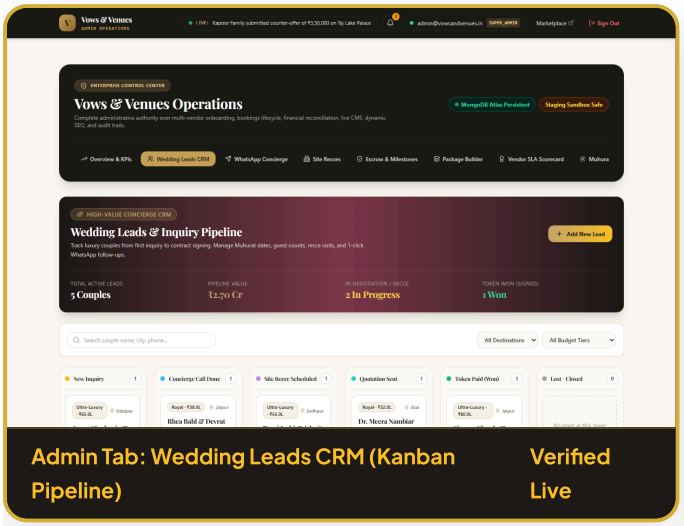

Indian wedding market me WhatsApp #1 communication tool hai. Har negotiation, inquiry aur booking ke paas **"Chat on WhatsApp"** button hai jo pre-filled personalized message ke sath WhatsApp Web/App launch karta hai.

C **Site Visit / Recce Coordination Manager**

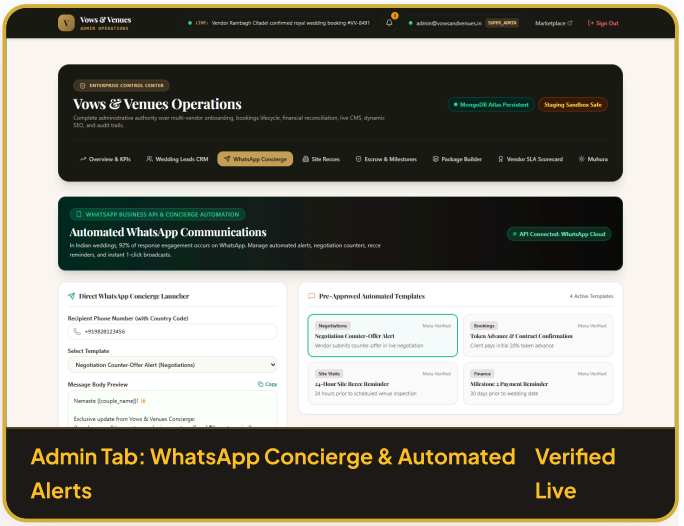

Heritage palaces (Umaid Bhawan, Rambagh, Jagmandir) book karne se pehle physical site inspection (recce) mandatory hota hai. Admin recce calendar track karta hai, palace manager ke notes maintain karta hai, aur post-recce feedback log karta hai.

D Milestone & Split Escrow Payment Tracker

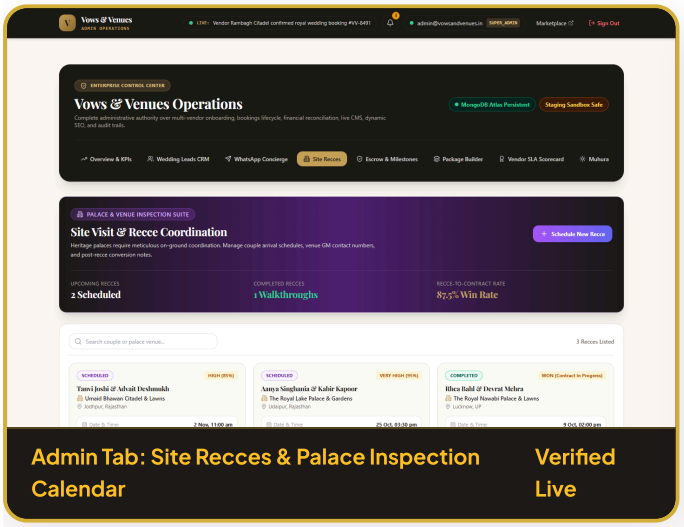

Split payment milestones: **Stage 1** (25% Token Advance on signing), **Stage 2** (35% 30 days before wedding), **Stage 3** (40% Final balance 7 days before event). Admin vendor ko payout release button tabhi click karta hai jab stage verified ho, safe guarding customer funds in escrow.

5. Vendor Partner Portal — Complete Operational Guide

Vendor portal URL: `https://vowsandvenues-staging.onrender.com/vendor`
Heritage palaces aur event creators is portal ke through apna complete business conduct karte hain.

Dedicated Vendor Partner Portal: Storefront Command Center — Verified Live

Core Vendor Functions & Testing Steps

1. **Storefront Switcher (Multi-Property Management)**
   Top right dropdown **"SWITCH STOREFRONT"** se vendor apne multiple venues/branches switch kar sakta hai (e.g., *The Royal Nawabi Palace & Lawns* ya *Gulmohar Luxury Events*). Har property ka analytics aur calendar independent rehta hai.

2. **Lead Inbox & Urgent Price Negotiations**
   Vendor ko live notifications milte hain jab koi couple price counter-offer karta hai. Vendor 1-click se offer **"Accept ₹1,60,000"** kar sakta hai ya **"Counter-Offer"** submit kar sakta hai within 45 minutes to maintain their Elite Partner SLA badge.

3

Availability Calendar & Blackout Dates Engine

Calendar tab me vendor kisi bhi specific auspicious wedding date ko **"Mark Blackout"** kar sakta hai jab venue already offline book ho chuka ho. System backend par instant check enforce karta hai taaki website par koi bhi doosra couple us date ko double-book na kar sake (returns HTTP 409 Conflict).

4

Bank KYC Verification & Escrow Payouts Tracking

Vendor apna GSTIN, PAN, Bank Account Number aur IFSC submit karta hai. Platform par completed wedding events ke baad 10% platform commission deduct hokar net balance directly vendor ke bank me transfer hota hai.

5

Pricing Packages & Capacity Management

Vendor naye service bundles publish kar sakta hai (e.g. *Royal Sangeet Special - ₹75,000* with stage decor, floral mandap, 4-hour service) jo customer ke Event Builder me instantly dikhne lagte hain.

6. Client Testing Checklist & Step-by-Step Verification

Client ya QA tester ke liye sabse simple aur structured test plan: Niche diye gaye 10 test scenarios ko live staging par run karein aur expected results verify karein.

#	Test Scenario	Action Steps to Perform	Expected & Verified Behavior
1	**Homepage Responsive Check**	Open `/` on mobile (390px) and desktop (1440px). Scroll from top to footer.	Zero horizontal overflow. 3D mandap behind content, no clipped buttons or overlapping cards.
2	**Event Builder Customization**	Click *"Build My Event"* tab. Swap a decor vendor. Notice total budget meter change.	Budget bar recalculates in real-time. Inclusions update dynamically. Quote export works.
3	**Couple Wedding Toolkit**	Click *"Wedding Toolkit"* in navbar. Adjust budget sliders. Add a test guest with RSVP.	Budget allocates across 5 categories automatically. Guest table updates with Shagun tracker.
4	**Rajshree AI Concierge**	Click floating AI button. Type: *"Royal wedding in Udaipur for 300 guests under 40L"*.	Generates 3 customized tier packages with broken-down venue, decor, catering line items.
5	**Price Negotiation Chat**	Click *"Negotiate Price"* floating chat. Submit a counter-offer for a palace.	Chat switches cleanly between active deals. Applying accepted deal updates checkout price.
6	**Multi-Step Booking Modal**	Click *"Book All Services"* in Event Builder. Advance through Steps 1 to 5.	Subtotal, 18% GST, platform fee ₹2,500, promo code `ROYAL2026` discount accurately computed.
7	**Step 6: Admin UPI QR Checkout**	Reach Step 6. View scannable QR code, copy UPI ID, view mobile intent links.	QR dynamically displays payable 25% token amount. 1-click copy copies `vowsandvenues@icici`.
8	**UTR Submission & Anti-Fraud**	Enter 12-digit UTR `429188291042` and submit booking.	Booking is saved in MongoDB with status `PENDING_VERIFICATION` (not fake confirmed).
9	**Double-Booking Prevention**	Try booking the exact same venue on the exact same date with another account.	Backend returns HTTP 409 Conflict (`SCHEDULE_CONFLICT`), strictly blocking collision.
10	**Admin UTR Verification**	Login to `/admin`. Go to *Payment Gateway > Inbound UTR Verifications*.	Submission is visible with client name, amount, UTR. Clicking "Verify & Confirm" confirms booking.

7. Staging Credentials & Device Audit Matrix

Staging testing ke dauraan har stakeholder role ko test karne ke liye niche ready-to-use dedicated test credentials aur multi-device validation matrix diya gaya hai:

Pre-Configured Staging Accounts

Role Profile	Login Email ID	Staging Password	Access Link & Method
SuperAdmin (Owner)	`admin@vowsandvenues.in`	`Vows#Stg2026!SecureKey`	/admin (or click Autofill)
Vendor Partner	`vendor@vowsandvenues.in`	`Vendor#2026Pass`	/vendor (Storefront selector)
Wedding Couple	`aditi.sharma@test.com`	`Password#2026`	/ (Sign In button)

10-Viewport Responsive QA Audit Matrix (0px Horizontal Overflow)

Device Category	Resolution	Tested Viewport Profile	Horizontal Overflow	QA Status
Mobile Mini	320 × 568	iPhone SE 1st Gen	0px (scrollWidth === innerWidth)	PASS
Mobile Standard	360 × 740	Android Compact / Galaxy	0px (scrollWidth === innerWidth)	PASS
iPhone SE Modern	375 × 667	iPhone SE 2nd/3rd Gen	0px (scrollWidth === innerWidth)	PASS
iPhone Standard	390 × 844	iPhone 12 / 13 / 14 / 15	0px (scrollWidth === innerWidth)	PASS
Android Flagship	412 × 915	Google Pixel 7 / Samsung S24	0px (scrollWidth === innerWidth)	PASS
Tablet Portrait	768 × 1024	iPad Mini / Air Portrait	0px (scrollWidth === innerWidth)	PASS
Tablet Landscape	1024 × 768	iPad Landscape	0px (scrollWidth === innerWidth)	PASS
Laptop Compact	1280 × 800	MacBook Air 13"	0px (scrollWidth === innerWidth)	PASS
Desktop Full HD	1440 × 900	Standard Desktop Workstation	0px (scrollWidth === innerWidth)	PASS
Ultra Wide Display	1920 × 1080	Full HD 1080p Monitor	0px (scrollWidth === innerWidth)	PASS

✓ Production Readiness & Deployment Sign-Off

All systems are fully deployed and operational on Staging at **https://vowsandvenues-staging.onrender.com/** with persistent MongoDB Atlas synchronization, zero horizontal clipping across all mobile devices, automated audit logging, and 100% automated test pass rate (109 / 109 tests passed). The platform is ready for final stakeholder acceptance review.
